

## MAN TURBO: Orders for nine THM Gas Turbine Units

Munich,  
Nov. 12, 2004

MAN TURBO has booked orders for nine THM gas turbine units in recent weeks. The complete order value amounts approximately €50 million.

OMV Gas GmbH of Vienna, Austria, has ordered two gas turbine/compressor units for the new compressor station to be built in Rainbach. Each of the two machine sets comprises a THM gas turbine with increased output and a pipeline compressor. This is the first order for these machine sets from Austria.

Two machine sets, each consisting of a gas turbine, a pipeline compressor and related station equipment, are being supplied for a new compressor station under construction on the Red Sea in Al Aqaba, Jordan. Once the project is complete, Egyptian gas will be transported from Sinai to Jordan and later also to Syria via this station.

Another important reference is the order for the delivery of five THM gas turbine units for PEDCO, Iran. Once commissioned, three machines each comprising a gas turbine and pipeline compressor will compress natural gas. Two machines made up respectively of a gas turbine and generator will be used to generate electricity.

The **MAN Group** is one of Europe's leading manufacturers of machinery and vehicles with annual sales of some €14 billion. As a global supplier of products, systems and services for the capital equipment industry, MAN operates with 64,000 employees in its core segments of commercial vehicles, printing machines, diesel engines, turbomachines and industrial services. MAN Group members hold leading positions in most of their markets. **MAN Aktiengesellschaft**, Munich, is a member of the Deutscher Aktienindex DAX (German Share Index) which comprises the thirty leading public limited companies in Germany.
