

## MAN TURBO AG takes over the steam turbine line of ThyssenKrupp Technologies

Munich, April 10, 2006

MAN TURBO AG, Oberhausen, has taken over the steam turbine activities of B+V Industrietechnik GmbH (BVI), Hamburg, a subsidiary of ThyssenKrupp Technologies (TKT), Essen. The date of the takeover is retroactive from 01.01.2006.

**MAN Aktiengesellschaft**  
Ungererstr. 69  
80805 Munich

The Hamburg facility, with approx. 250 employees and a turnover of around 60 million €, will be integrated within the global operations of the MAN TURBO Group. With this takeover MAN TURBO have augmented its steam turbine product range for lower power outputs, so that today it covers the entire range from 1 to 120 MW.

**Corporate Communications**  
Wieland Schmitz

**Media Relations**  
Andreas Lampersbach

BVI steam turbines are installed as generator drives for biomass, waste incineration and in co-generation power plants in Central and Northern Europe, whereas MAN TURBO steam turbines are established globally as compressor and generator drives.

With this expansion in activities, the MAN Group continues with its strategy to reinforce all business sectors of MAN TURBO, as well as extend its competence as a manufacturer of complete turbomachinery trains.

The **MAN Group** is one of Europe's leading manufacturers of engineering equipment and vehicles, generating annual sales of around €15 billion. MAN supplies products, systems and services to the capital goods industry and employs approx. 58,000 people worldwide. The Business Areas operated by the MAN Group, Commercial Vehicles, Industrial Services, Printing Systems, Diesel Engines and Turbomachines, all hold leading positions in their markets. MAN AG, Munich is a member of the DAX German Share Index, which comprises Germany's top 30 public limited companies.
