

# TECHNICAL SPECIFICATIONS.

	Unit	Extra long with high roof
Gross vehicle weight	kg	5,000
Length	mm	7,391
Width	mm	2,069
Height	mm	2,625
Type of tyre, rear axle		Twin-tyre configuration
Standing height	mm	1,861
Passenger capacity max.		16
Seating capacity max.		16
Permissible axle load front	kg	2,200
Permissible axle load rear	kg	3,500
Wheelbase	mm	4,490
Clearance circle	m	16.5 - 17.0
Side sliding door	mm	Entry via front passenger side
Gearbox		8-gear automatic transmission
Engine power	kW (HP)	120 (163)
Driveline		Rear-wheel drive
Tank volume diesel	l	75
Tank volume AdBlue	l	30

Height measurements exclusive of roof-mounted climate system. The dimensions listed here may vary by approx. ± 40 mm depending on exact fittings.

Refrigerant R1234yf is used in vehicle classes N1, M1, N2 and M2. The GWP value of the refrigerant used is 4 (refrigerant R1234yf). The quantities vary between 540 – 570 grams with one air conditioning compressor and 785 – 815 grams with two air conditioning compressors.

Refrigerant R134a is used in the eTGE. The GWP value of the refrigerant used is 1,430 (refrigerant R134a). The quantities depend on the air conditioning compressor and vary between 560 – 590 grams.

Sommer tyres	205/75 R16 C 113/111
Rolling resistance	B
Wet grip	A
External rolling noise	72-69 dB
Noise emissions

# THE MAN TGE COACH.

The MAN TGE Coach is a perfect minibus for discerning groups on the move and individual transport.

With the MAN TGE Coach, up to 16 passengers can be afforded maximum travel comfort. High-quality adjustable leather seats and ample space ensure a pleasant journey even when the road is long.

The best safety possible is also ensured, as the MAN TGE Coach is not only powered by a 120-kW engine, but is also equipped with numerous assistance systems and a rear view camera<sup>1</sup>. Passengers are thus sure to travel with first-class comfort and reach their destination safely.

## Please take a seat.

Its 16 passenger seats plus the driver's seat guarantee that all interior space is used optimally. Thanks to fixed installation of the seat posts in the vehicle floor and lowered wheel housing, all seats offer fully unimpeded leg-room. Perfect for smaller groups that wish to travel in style and comfort. The wood-look flooring and imitation leather interior side paneling create an extraordinarily luxurious ride, and ambient lighting<sup>1</sup> puts the finishing touches on the elegant interior fittings.

Every seat is equipped with its own ventilation regulator for the series-standard climate control system, individual lighting and storage compartments for handbags or backpacks. Additional luggage items can be easily stored in the capacious boot. USB ports at every seat and a shelf for phones make sure each passenger has access to individualised entertainment options.

<sup>1</sup> Optional feature at extra cost

## Rear flap access to large boot.

More leg space and room to move for passengers: the low inset boot offers plenty of space for large luggage items. Insulation and panelling round out the boot's high-quality workmanship.

## Seat configuration – comfortable and elegant.

Extra-long
