MAN Truck & Bus SE – a member of the TRATON GROUP

THE MAN TGE INTERCITY.

All kinds of room for travelling in style: the MAN TGE Intercity is the perfect vehicle for making a grand entrance.

With up to 19 seats, it offers a maximum scope for excursions, hotel or shuttle trips or for use as a first-class school or club bus. The seriesstandard emergency braking system and crosswind assistant set an extraordinary standard in terms of safety and can be augmented with numerous additional assistants such as a rear view camera¹ or fatigue recognition system¹.

The MAN TGE Intercity comes with rear-wheel drive and either a 6-gear manual transmission or an 8-gear automatic transmission, and it can be tailored to meet many other individual requirements.

Please take a seat.

The electric sliding door¹ at the passenger compartment provides additional comfort in embarking and disembarking, and is operated via the simple push of a button.

An airline rail system integrated in the floor is included as standard with the MAN TGE Intercity and ensures maximum flexibility. For example, either single seats for up to 14 passengers or single and double seats for up to 19 passengers can be installed. Thanks to the practical optional quick-release fasteners, the seats with 3-point belts can be effortlessly installed and removed.

Boot for luggage.

Depending on the seat configuration selected, the MAN TGE Intercity provides generous storage space for luggage.

Seat configuration.

The MAN TGE Intercity is available in two seating configurations: either with 19+1 seats or 16+1 seats plus a boot behind the back row.

Possible seating configurations.
