

# SIMPLY EXCEPTIONAL. IN EVERYDAY CHALLENGES.

The MAN TGE **Next Level.**

**WE HAVEN'T REINVENTED THE WHEEL.  
BUT ALMOST ANYTHING ELSE.**

**The MAN TGE Next Level gets the work rolling. Because it's more than a van. It's the truck among vans.** Since its launch in 2017, the MAN hot shot has simplified the workday for a lot of clients – whether in forestry, quarries, passenger transportation or on construction sites. For the model year 2025, the MAN TGE Next Level is ready to dig into the job. And it bears its new name quite rightly. Because it upgrades every workday – today and tomorrow.

With its comprehensive technological update including the redesigned driver's workplace as well as new and improved assistance systems, the MAN TGE Next Level provides a rise in comfort and safety. With even more highlights under its hood, it is stepping up to meet future legal requirements and to fulfil our central promise to the MAN customers: simplifying business – by making the daily transport business as easy, efficient and successful as possible.

# A VAN OF HIS WORD.

Experience the MAN Customer Promise in the MAN TGE Next Level.

## Safety

Due to its fundamentally renewed e/e-architecture and all the possibilities that come from it, the MAN TGE Next Level has brains and brawns to meet current and future legal regulations as well as heightened demands: with more safety for drivers and road users, new standard and optional assistance systems for more safety as well as higher vehicle security by protection from digital manipulation. Simply everything to ensure safer transports, less downtime and therefore reduced follow-up costs.

## Driver Orientation

The best place to start the workday? How about the completely modernised cockpit? The new driver's workplace wins over with new features for more driving and operating comfort, additional comfort-oriented assistance systems both serial and standard and above all: the new dashboard with digital instrument panel. With a full package to relieve the driver and to enhance his concentration and motivation, the MAN TGE Next Level makes driving time almost feel like free time.

## Solution Provider

The MAN TGE Next Level always goes the extra mile to get all kinds of daily transport jobs done: it comes in a lot of variants and offers a vast number of practically oriented features. Business solutions needed? The MAN TGE Next Level offers a comprehensive package – from quickly available vehicles ex works or from the body builder and tailor-made transport solutions to digital services, financing, rental and used vehicles, maintenance contracts and driver training.

## Partnership

At MAN, we put our customers' needs at the center of everything we do. Advise, support, special demands: there's hardly any request that can make our van specialists sweat. They provide a truckload of industry competence as well as best connections to renowned body manufacturers. That's why our customers can rely on the best quality and a strong partnership throughout the entire vehicle life cycle – whether it's in the workshop, at breakdowns or when they need accessories and parts.

# FEEL AT HOME. AT WORK.

The new interior of the MAN TGE Next Level does everything to make you feel at ease – from the start to the end of your workday. It provides all the comfort modern technology has to offer today. So, you can always concentrate on the essentials – whether in traffic or during the break.

## New Interior

- Ergonomic multifunction steering wheel
- MAN Media Van Navigation Business with 12,9" display<sup>1</sup>
- MAN SmartLink smartphone integration
- Digital instrument panel
- Electronic parking break
- Keyless Go
- USB-C interface
- Automatic gear-shift lever

<sup>1</sup> Additional equipment at extra charge.

**Ergonomic multifunction steering wheel**

You won't want to let go of it again: the ergonomic steering wheel has been newly developed. And it doesn't just feel good. You can also conveniently select the new assistance systems here.

**MAN Media Van**

What a beautiful view. The new MAN Media Van comes with two display variants – 10,4" or 12,9" – and a lot of helpful features. The infotainment system offers a DAB tuner and Bluetooth interface as standard. You can also co-opt voice control, navigation and web radio.

**MAN SmartLink**

Everything in it for you: smartphone integration takes place with Android Auto or Apple CarPlay – including wireless charging. Selected apps are displayed on the on-board screen and can be operated via the controls of the MAN TGE.

**Digital instrument panel**

The show must go on. The new instrument cluster shows you important details such as speedometer, odometer, rev counter, fuel level, coolant temperature and more in a clear and easily recognisable way.

**Electronic parking break**

Forget the mechanical parking brake lever. Here comes the electronic parking brake, operable via a simple button in the cockpit. The additional "Auto Hold" offers additional relief, e.g. in stop-and-go traffic or on slopes.

**Keyless Go**

Just leave the key in your pocket! Keyless Go makes the vehicle ready for operation via radio. An additional button in the cockpit is then used to start (and stop) the engine without a key.

**USB-C interface**

Your smartphone charger is now always with you. Two USB-C ports in the dashboard make it easy to charge mobile devices quickly – as well as data transfer.

**Automatic gear-shift lever**

Make yourself comfortable. The automatic gear-shift lever improves driving performance and driving experience. And it is quick and easy to operate, especially when things get complicated on the road.

## NEXT LEVEL EDITION

With its premium exterior colour and small but excellent details, the **MAN TGE Next Level** gets style into top gear. And the streets' attention.

**The exterior highlights include:**

- Launch colour pale copper metallic
- Mirror covers in piano black
- Boomerang at bumper in silver
- "Next" badge in front grill
- 17" alloy rims in silver or optionally in black

# GET YOURSELF A **LIMITED EDITION** AND UNLIMITED EYEFULS.

The TGE **Next Level** Edition.

The new MAN TGE Next Level already comes as standard with a range of state-of-the-art assistance systems that make your daily life a whole lot easier. And for those who want even more support there are plenty of options to make the equipment on board even more complete.

## New Standard Assistance Systems (Highlights)

- Fatigue Detection
- Traffic Sign Information
- Intelligent Speed Assist
- Speed Limiter
- Emergency Brake Assist
- Active Lane Guard System
- Tire Pressure Monitoring System
- Blind Spot Warning (left or right)<sup>1</sup>
- Drive Off Warning<sup>1</sup>
- Park Distance Control in front and rear
- Cruise Control

## New Optional Assistance Systems (Highlights)

- Park Assist
- Rear view camera with dynamic guide lines
- Cruise Assist Plus<sup>2</sup>
- Emergency Assist<sup>3</sup>
- Blind Spot Warning (double-sided)<sup>4</sup>
- Drive Off Warning<sup>4</sup>
- Turning Assist

**Emergency Brake Assist (Standard)**

Sometimes it's simply a matter of being fast. The MAN TGE Next Level's Emergency Brake Assist helps to avoid collisions with vehicles in front. It supports the driver with automatic braking, warns of insufficient distance (visually and acoustically) and can even initiate braking<sup>3</sup>. The integrated pedestrian and cyclist detection additionally increases safety for other road users.

**Cruise Assist Plus (Option)<sup>2</sup>**

Stay well protected on the road: with Cruise Assist Plus. It combines the functions of ACC Stop & Go, Emergency Assist, Active Lane Guard System and Traffic Jam Assist. It helps the driver to always maintain distance, speed and lane. Dangerous situations such as leaving the lane, rear-end collisions and endangering other road users can thus be averted (within the system limits).

**Traffic Sign Information (Standard)**

Always good to know: the Traffic Sign Information informs the driver about traffic signs detected by the cameras or determined from navigation and route data. It also warns the driver when driving in the wrong direction. The configurable EU-intelligent Speed Assist is also integrated. It determines the speed limit from recorded traffic signs and predictive route data and provides visual and audible warnings if the speed limit is exceeded.

**Emergency Assist (Option)<sup>3</sup>**

Call it a guardian angel. We call it Emergency Assist. It permanently monitors whether the driver is operating the accelerator, steering and brake. In the event of a health impairment or loss of driving ability, the driver may no longer be able to act. In this case, the Emergency Assist takes over vehicle control to bring the vehicle to a stop and then secures it by activating the hazard warning lights and other safety functions.

**Active Lane Guard System (Standard)**

As if there were a second driver: the Active Lane Guard System helps the driver to keep the vehicle in its lane. The course of the lane boundaries is recorded by a camera. If necessary, the system helps with steering interventions. In addition, the system warns by means of steering wheel vibration or an acoustic signal if a lane marking is crossed unintentionally.

**Blind Spot Warning (Option)<sup>1, 4</sup>**

Blind spots? Not any more. With Blind Spot Warning, the multifunction camera and radar monitor the blind spot area alongside the vehicle (depending on left-hand or right-hand drive, available on both sides as an option). This significantly reduces the risk of collision with cyclists, especially when turning.

## Drive Off Warning (Option)<sup>1, 4</sup>

This always helps to make a good start: the Drive Off Warning monitors the area in front of the vehicle with the help of the multifunction camera and radar. This significantly helps to avoid collisions with pedestrians or cyclists when pulling away. The monitoring range of the collision warning can be supplemented by the Blind Spot Warning: on the left side, on the right side or on both sides.

<sup>1</sup> Standard for vehicles over 3.5 t, N2.

<sup>2</sup> Available for vehicles with automatic transmission only.

<sup>3</sup> Emergency Assist only available with ACC Stop & Go and with Cruise Assist Plus, therefore just for vehicles with automatic transmission.

<sup>4</sup> Optional for vehicles with 3.5 t, N1.

**EXPECT AN ASSISTANT  
AT YOUR SIDE.  
OR EVEN A FEW MORE.**
