

SIMPLY **FOUR TIMES** AS STRONG.

Warranty

Fast, flexible and reliable – MAN TopUsed is quality you can count on. With our special-offer package, on the purchase of a MAN TopUsed truck you can now extend your warranty for the driveline or the entire vehicle to up to 36 months and mileage of 1.1 million km.

You can decide for yourself which level of coverage suits you best. Should it come to a warranty claim being made, you'll benefit from fast and reliable processing. The comprehensive network of MAN service outlets and partners ensures there's always someone close by to guarantee competent repairs and short wait times.

Service contract

The integrated service contract offers you best-possible planning and cost calculation security. Fixed maintenance intervals provide enhanced protection against unforeseen repairs. No matter which of the five MAN service agreements you choose, MAN has the ideal solution for any set of requirements. With a MAN service contract, 1,300 MAN service points are at your vehicles' disposal across Europe. We will see to it that they receive expert maintenance and repair quality.

These service components will save you costs, as with the help of our trained MAN service technicians you can reduce your risk of downtime as well as lower your fuel consumption thanks to optimally configured technical systems in your vehicle.

Breakdown assistance

No matter when or where, with the MAN uptime guarantee, you're never alone on the road. Because we're there to help you out whenever you need us. 365 days a year, 24 hours a day, we ensure reliable operational readiness of your MAN truck – in more than 30 European countries. We can provide targeted assistance, e.g. by servicing a breakdown on-site or arranging a tow to the nearest MAN service point, should repairs on the spot not be possible. If repairs cannot be completed on the same day, we provide a replacement vehicle. Should no replacement vehicle be available, financial support in the form of downtime compensation is an additional possibility.

In all cases, you can trust in experienced mechanics who know MAN vehicle technology inside and out. Thanks to the tightly knit network of workshops, we are ideally positioned to get you assistance as fast as possible and minimise your wait time.

Digital maintenance management

The digital service MAN ServiceCare enables you to take a proactive approach to maintenance management for your MAN fleet – right from your desk in fact thanks to digital tools. Via the RIO platform, you can coordinate upcoming maintenance and workshop appointments with your MAN service partner simply and easily. You always have an overview of the current maintenance status of your MAN truck fleet or even of individual components. And you decide yourself which maintenance tasks you'll take care of independently or where MAN can offer you proactive support. This reduces unforeseen repair costs and allows you to minimise administrative time in a targeted manner.

A **POWERFUL** **PACKAGE TO PUT** **YOU AHEAD!**

Take advantage of many special benefits when purchasing a MAN TopUsed truck now!

Warranty, breakdown assistance, service contract and digital maintenance management all in a single package. More information at: man-topused.com

A POWERFUL PACKAGE: YOUR BENEFITS AT A GLANCE

On purchasing a MAN TopUsed truck, for a short time only you have the opportunity to secure yourself a special offer comprising a package of our tried-and-tested services at a never-seen-before price – of €99 per month.* All in one just for you, available until December 2021. The term of the package can be set just as you like: at 12, 24 or 36 months, whichever you require.

All MAN TopUsed utility vehicles are always professionally serviced, comprehensively tested and offer extraordinary efficiency and reliability. Take advantage, too, of our MAN quality promise and integrated service offering that will give you precisely the support you and your business need. This all-round protection will be your personal security in the case of damages or a breakdown and the foundation for reliable operational readiness and uptime.

Thanks to forward-looking maintenance planning and bundling of workshop visits, you can even increase vehicle availability. After all, minimised downtimes translate to economic security. And that's why we offer you reliable solutions and an experienced personalised advisory service from our MAN TopUsed experts. Always transparent and flexibly tailored to your needs.
