

NO ROAD

ON ROAD. OFF ROAD. OWN THE ROAD.

Whether on rainy and wet roads, damaging road surfaces, extreme inclines, or the challenges of going off road – if you don't have the right traction, you quickly reach your limits, thereby endangering both the load and the driver.

The MAN TGE 4x4 makes sure that it doesn't come to that: with its innovative all-wheel drive, it provides greater safety, agility, and efficiency – on nearly any terrain and in any weather conditions.

Advantages at a glance

- Fully automatic activation depending on the driving situation
- Variable torque distribution to the front and rear axles in milliseconds
- Full traction on nearly any surface
- All assistance systems fully integrable
- Combinable with six-speed manual transmission or eight-speed automatic transmission*
- Fuel-saving front-wheel drive for normal operation on the street
- Low-maintenance four-wheel drive
- Original factory solution

*Optional equipment at extra cost.

MAN Truck & Bus – A member of the MAN Group

SAFETY SQUARED = 4x4.

The new MAN TGE 4x4.

ON ROAD

OFF ROAD

POWERFUL DRIVE THAT SHINES IN ANY SITUATION.

Regardless of terrain and weather conditions – the low-maintenance all-wheel-drive system constantly works in the background and reacts fully automatically to potential losses in traction – in fractions of a second. This allows you to experience outstanding driving characteristics, a lower risk of accidents, and significantly increased efficiency at all times.

All-wheel drive fully integrated and compatible with all driver-assistance systems.

Innovative design with unlimited ground clearance and hardly any additional weight.

Electronic controls continuously collect information on the driving dynamics and – within milliseconds – perfectly distribute torque to the front and rear axles.

Fuel-saving front-wheel drive for normal operation on the street.
